<sup>1</sup> – PhD exam

<sup>2</sup> – Marked credit

<sup>3</sup> – MT – Master thesis

\*The higher education institutions have the right to shift up to 90% of activity, assumed by curriculum, into the form of master student's self-study (excluding subjects of PhD exams and credits).

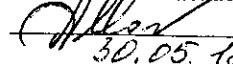

\*\*While creating a curriculum, the higher education institutions are recommended to assume the workload of elective subjects up to 50% of academic hours of the component of a higher education institution.

\*\*\*According to the plan, semester 1 has 20 hours of scientific work per week, and 27 hours in semester 2. The volume of scientific (research) work includes the preparation of master thesis materials, participation in scientific conferences, etc. The volume is approximately 700-1,000 academic hours.

\*\*\*\*While planning theoretical training, it is recommended to assume at least 50% of a master student's self-study.
